- **CSS**
- **Javascript**
- **React.js**
- **Node.js**
- **MongoDB**
- **Bootstrap**

### QUALITIES

- **Leadership**
- **Problem solving**
- **Punctuality**
- **Adaptability**
- **Creativity**
- **Teamwork**
- **Time management**
- **Honesty**

### OBJECTIVE

Seeking a challenging position in a reputed organization where I can learn new skills, expand my knowledge, and leverage my learnings. To get an opportunity where I can make the best of my potential and contribute to the organization's growth.

### EXPERIENCE

#### JDB InfoTech | Web developer

2023-2024

During my internship/work at JDB Infotech, I had the opportunity to immerse myself in the dynamic field of web development.

I was responsible for implementing front-end features using HTML, CSS, and JavaScript, ensuring a responsive and user-friendly interface. This hands-on experience deepened my understanding of front-end development frameworks and best practices.

I also gained valuable experience in back-end development, where I assisted in creating and maintaining RESTful APIs using Node.js and Express. This role allowed me to understand the importance of seamless communication between front-end and back-end systems, ensuring efficient data flow and functionality.

#### Quality Incharge | Trimos Enterprises

2021-2023

Implementing methods to inspect, test and evaluate products and production equipment. Preparing reports by collecting, analyzing and summarizing data. Working according to deadlines for the delivery of products.

#### Ecommerce Project

One of the highlights of my experience was working on e-commerce Project. I developed this project using React.js for the front end, creating a responsive and user-friendly interface.

On the back end, I worked with Node.js and Express to create and maintain RESTful APIs, ensuring seamless communication between the front-end and back-end systems. Additionally, I used MongoDB for database management.

### AREA OF INTEREST

Web development, programming , responsive web design
